PROFILE

Lecturer II at the Federal University of Health Sciences, Azare, and Executive Director of AIRA Africa. MRI specialist radiographer and medical imaging researcher with over nine years of clinical experience across MRI, CT, general radiography and ultrasound. My work sits at the intersection of clinical imaging, neuroimaging and artificial intelligence, with a focus on patient safety, quality assurance, workflow optimization and equitable access to diagnostic imaging in resource-limited settings. Author of 13 journal and conference/workshop papers, including MICCAI satellite-workshop and Springer LNCS contributions; recipient of MICCAI Health Equity, Open Data and Travel awards. Project Lead of the MICCAI 2026 Health Equity project for Africa, developing AI tools for pre-MRI safety screening, image quality optimization and digital data recording in Nigerian imaging centres. Currently pursuing a PhD in Medical Radiography at Bayero University Kano on AI-assisted workflow enhancement in MRI, with emphasis on safety and image quality optimization.

EDUCATION

PhD, Medical Radiography (in progress) 2023 – present
Bayero University Kano, Nigeria

Postgraduate Diploma, Magnetic Resonance Imaging 2023 – 2024
Institute of Radiography, Abuja

Postgraduate Diploma, Medical Ultrasound 2022 – 2023
Institute of Radiography, Kano

MSc, Nuclear Physics 2017 – 2022
Bayero University Kano, Nigeria

Bachelor of Radiography (B.Rad.) 2010 – 2016
Bayero University Kano, Nigeria

ACADEMIC APPOINTMENTS AND LEADERSHIP

Executive Director 2026 – present
African Institute for Research Advancement & Innovation (AIRA Africa)

- Coordinate the institute's research, mentorship and outreach programmes.
- Lead the institute's online instructional activities.

Lecturer II 2025 – present
Federal University of Health Sciences, Azare

- Deliver lectures and clinical tutorials in general radiography and magnetic resonance imaging.
- Supervise students and contribute to curriculum development.
- Support interdisciplinary research, professional mentorship and departmental outreach.

CLINICAL EXPERIENCE

Team Lead Radiographer (part-time, alongside academic appointment) 2019 – present
Medserve Kano Diagnostic Center / Aminu Kano Teaching Hospital, Kano

- Coordinate MRI, CT, X-ray and ultrasound services.
- Oversee QA/QC, radiation safety and RIS/PACS workflows.
- Mentor student and intern radiographers.

Chief Radiographer Dec 2018 – Jan 2024

Mercury Medical Diagnostic Center

- Supervised radiography staff and coordinated departmental service delivery.
- Managed clinical scheduling, workflow and resource allocation.
- Developed and implemented standard operating procedures (SOPs) for radiographic services.

Radiographer, National Youth Service Corps (NYSC) 2017 – 2018

Federal Medical Centre, Birnin Kudu, Jigawa State

Intern Radiographer 2016 – 2017

Federal Medical Centre, Birnin Kudu, Jigawa State

RESEARCH AND TEACHING INTERESTS

Medical radiography and imaging physics; MRI acquisition and optimization; diagnostic ultrasound; CT and radiation protection; quality assurance; neuroimaging; AI-assisted medical imaging; imaging informatics; equitable access to diagnostic services.

PUBLICATIONS (13)

Journal articles and peer-reviewed conference/workshop papers, most recent first. Titles link to the publisher, proceedings or scholarly record; preprint versions are listed once.

1. NIMARC-MRI: Abdominal HASTE Dataset and a Baseline U-Net Exposing the Synthetic-to-Real Gap in Low-Resource Motion Correction. *MICCAI 2026 Satellite Events — MIRASOL Workshop*, 2026. [First author]
2. Prepared or Unprepared? Evaluating Healthcare Workforce Readiness for Clinical Adoption of Artificial Intelligence in Nigeria. *MICCAI 2026 Satellite Events — AFRICAI Workshop*, 2026.
3. From Manuals to Maintenance: Fine-Tuning MedGemma for Multi-Modal Imaging System Support in Low-Resource Settings. *MICCAI 2026 Satellite Events — AFRICAI Workshop*, 2026.
4. WebMRIQC: A Web-Based Implementation of MRIQC for Accessible MRI Image Quality Assessment in Resource-Constrained Settings. *MICCAI 2026 Satellite Events — MIRASOL Workshop*, 2026.
5. Fairness and Cross-Regional Generalizability of State-of-the-Art Glioma Segmentation Models: Evaluation Across African and Global Cohorts. *MICCAI 2026 Satellite Events — MIRASOL Workshop*, 2026.
6. BRAIN-CATS: Brain Tumour Reliability-Aware Imaging with Neural Networks Using Calibration-Aware Training and Segmentation. *MICCAI 2025 BraTS-Lighthouse / AIMS-TBI Challenges (Springer LNCS)*, pp. 284–295, 2026.
7. Correlation of Brain MRI Findings with Anthropometric Variables in Paediatric Patients with Seizure Disorder at Aminu Kano Teaching Hospital, Kano, Nigeria. *Sub-Saharan Journal of Health and Radiation Science*, 1(1), 62–69, 2026.
8. Radiographic Quality Assurance and Patient Radiation Safety: A Repeat and Reject Analysis of Plain Radiographs at a Tertiary Hospital in Kano, Nigeria. *Yobe Medical Journal*, 2(2), 149–155, 2026.
9. Mimic-Aware Tuberculosis Detection in Nigerian Chest X-rays via Disease-Specific Transfer Learning. *Africa in AI Affinity Group at NeurIPS*, 2026. [Workshop contribution]
10. Investigation of the Sonographic Association between Amniotic Fluid Volume and Fetal Movements in the Third Trimester of Pregnancy: A Cross-sectional Study. *Journal of Neonatal Surgery*, 14(8), 2025.
11. Assessment of Access to Research Funds by Radiography Lecturers in Nigeria. *Journal of Radiography and Radiation Sciences*, 38(2), 1–7, 2025.
12. Sonographic Assessment of Urinary Bladder Wall Thickness in Apparently Healthy Children in Kaduna Metropolis, Nigeria. *Nigerian Journal of Pure and Applied Sciences*, 2024.
13. Dosimetric Audit of Diagnostic and Therapeutic Angiographic Procedures at Aminu Kano Teaching Hospital, Kano, Nigeria. *Pacific Journal of Medical Sciences*, pp. 52–60, 2017.

CONFERENCE ABSTRACTS AND PRESENTATIONS (7)

1. MRXtra: An AI-Assisted System for MRI Safety Screening, Workflow Decision Support, and Protocol Optimization in Resource-Limited Settings. *MICCAI 2026, AMAI Workshop — Strasbourg, France*. Presented; first author.
2. Improving MRI Sedation Safety in a Low-Resource Setting: A Multidisciplinary Approach to Preventable Adverse Outcomes. *ISMRM–ISMRT Annual Meeting 2026 — Cape Town, South Africa (abstract 131-01-012)*. Presented; first author.

3. A Clinical Case Study of Seizure Disorder with an Unknown Cause in a 3-Year-Old from a Government Hospital. *ISMRM–ISMRT Annual Meeting 2026 — Cape Town, South Africa (abstract 131-01-016)*. Presented.
4. Role of MRI in Diagnosis and Management of Diffused Midline Glioma: A Pediatric Case Report from a Low-Resource Setting. *ISMRM–ISMRT Annual Meeting 2026 — Cape Town, South Africa (abstract 131-01-008)*. Presented.
5. Recurrent Extra-cranial Giant Cell Tumour of the Maxilla with Paranasal Sinus Involvement: A Case Report. *ISMRM–ISMRT Annual Meeting 2026 — Cape Town, South Africa (abstract 131-01-019)*. Presented.
6. MRI Uncovers Multilobar Haemorrhages and Cortical Superficial Siderosis: A Case of Probable CAA in a 68-Year-Old Ghanaian. *ISMRM–ISMRT Annual Meeting 2026 — Cape Town, South Africa (abstract 131-01-002)*. Presented.
7. A Multimodality Deep Learning System for Breast Cancer Classification Using Histopathology and Ultrasound Imaging: A Proof-of-Concept Study. *Association of Radiographers of Nigeria (ARN) Conference 2026 — Abuja, Nigeria*. Accepted; co-author and corresponding author.

AWARDS AND GRANTS

MICCAI Award for the Advancement of Health Equity — 2026 Project: Africa — 2026
Project Lead: "AI-assist for MRI safety and image quality: AI tools to enhance patient safety, workflow compliance and captured image quality for MRI in resource-limited settings"

MICCAI Open Data Micro-Grant Award — 2026

MICCAI Travel Award — Daejeon, South Korea — 2025

PROFESSIONAL DEVELOPMENT

SPARK Academy — Sprint AI Training for African Medical Imaging — 2025

Neuroscience Workshop, African Brain Data Science Academy (ABDSA) — 2025

SWIM Programme, Consortium for Advancement of MRI Research and Education in Africa — 2024, 2025

PROFESSIONAL CERTIFICATIONS AND MEMBERSHIPS

Radiation Safety Officer, Nigerian Nuclear Regulatory Authority (NNRA) — 2025

Computed Tomography (CT) Certification — 2016

Vice Chairman II, Association of Radiographers of Nigeria (ARN) — Kano Chapter

Member, International Society for MR Radiographers and Technologists (ISMRT)

SKILLS

Clinical imaging	MRI and CT protocol optimization; ultrasound; general radiography
Quality & safety	QA/QC programmes; radiation protection; MRI safety screening
Informatics	RIS/PACS and LIS workflow management
Data science	Python, data processing and visualization; deep learning for medical imaging
Research	Study design, scientific writing, mentorship and teaching
