PROFILE SUMMARY

Lecturer, MRI specialist radiographer, and medical imaging researcher with over nine years of experience in clinical radiography, MRI, ultrasound, and CT. My work sits at the intersection of clinical imaging, neuroimaging, and artificial intelligence, with a strong focus on patient safety, workflow optimization, and equitable access to high-quality imaging, particularly in resource-limited settings. I have held academic and clinical leadership roles, including departmental headship of a diagnostic imaging service, training medical radiography students and coordinating advanced imaging and neuroimaging services in Nigeria. I am currently pursuing a PhD in Medical Radiography at Bayero University Kano, exploring AI-assisted workflow enhancement in MRI with emphasis on safety and image quality optimization.

EDUCATION

PhD, Medical Radiography (in progress) — Bayero University Kano, Nigeria	2023 – present
Postgraduate Diploma, Magnetic Resonance Imaging — Institute of Radiography, Abuja	2023 – 2024
Postgraduate Diploma, Medical Ultrasound — Institute of Radiography, Kano	2022 – 2023
MSc, Nuclear Physics — Bayero University Kano, Nigeria	2017 – 2022
BSc, Radiography — Bayero University Kano, Nigeria	2010 – 2016

PROFESSIONAL CERTIFICATIONS

Radiation Safety Officer — Nigerian Nuclear Regulatory Authority	2025
Computed Tomography (CT) Certification	2016

Recent Advanced Training

- SPARK Academy — Sprint AI Training for African Medical Imaging (2025)
- Neuroscience Workshop, African Brain Data Science Academy — ABDISA (2025)
- SWIM Program — Consortium for Advancement of MRI Research and Education in Africa (2024, 2025)

PROFESSIONAL EXPERIENCE

Executive Director — African Institute for Research Advancement & Innovation	2026 – present
• Oversee all institutional activities, including ongoing studies and mentorship programs. • Deliver online lectures and lead community outreach activities.	
Lecturer II — Federal University of Health Sciences, Azare	2025 – present
• Design and deliver lectures and clinical tutorials in general radiography and MRI. • Supervise students, update curricula, and promote interdisciplinary learning. • Lead departmental outreach and research capacity-building initiatives.	
Team Lead Radiographer — Medserve Kano Diagnostic Center / AKTH, Kano	2019 – present
<i>Part-time appointment at Aminu Kano Teaching Hospital, held alongside current academic role</i>	
• Oversee MRI, CT, X-ray, and ultrasound operations. • Implement QA/QC protocols and safety compliance audits. • Train and mentor interns and student radiographers; maintain digital imaging systems (RIS/PACS).	

Leadership & Departmental Management

- Supervised and coordinated the activities of radiography staff to ensure efficient service delivery.
- Oversaw workflow, scheduling, and resource allocation within the radiology department.
- Developed and implemented standard operating procedures (SOPs) for radiographic services.

SKILLS & COMPETENCIES

- | | |
|--|---|
| • MRI and CT protocol optimization | • Quality assurance and radiation safety |
| • Ultrasound and general radiography | • Clinical workflow management (LIS/RIS/PACS) |
| • AI and data science (Python, data processing, visualization) | • Research design and scientific writing |

AWARDS & PROFESSIONAL ACTIVITIES

- MICCAI Health Equity Grant — 2026
- MICCAI Open Data Micro-Grant Award — 2026
- MICCAI Travel Award — Daejeon, South Korea — 2025
- Founder/Director, African Institute for Research Advancement & Innovation (AIRA Africa) [\(link\)](#)
- Member, International Society for MR Radiographers and Technologists (ISMRT)
- Community outreach advocate for safe medical imaging practices
